DETAILED ACTION

Election/Restriction

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 1-22, drawn to compounds of formula (1.0.0) where Y represents C and both B1 and B2 represent saturated or unsaturated carbocyclic ring, pharmaceutical compositions containing these compounds and a method of using these compounds, classified in class 546, subclass 316.

II. Claims 1-22, drawn to compounds of formula (1.0.0) where Y represents N and both B1 and B2 represent saturated or unsaturated carbocyclic ring, pharmaceutical compositions containing these compounds and a method of using these compounds, classified in class 544, subclass 333.

III. Claims 1-22, drawn to compounds of formula (1.0.0) where Y represents C and both B1 and B2 represent saturated or unsaturated heterocyclic ring, pharmaceutical compositions containing these compounds and a method of using these compounds, classified in class 540, subclass 450.

IV. Claims 1-22, drawn to compounds of formula (1.0.0) where Y represents N and both B1 and B2 represent saturated or unsaturated heterocyclic ring, pharmaceutical compositions containing these compounds and a method of using these compounds, classified in class 540, subclass 470.

V. Claims 1-22, drawn to compounds of formula (1.0.0) where Y represents C, B1 represents a saturated or unsaturated carbocyclic ring and B2 represents a saturated or unsaturated heterocyclic ring, pharmaceutical compositions containing these compounds and a method of using these compounds, classified in class 546, subclass 255.

VI. Claims 1-22, drawn to compounds of formula (1.0.0) where Y represents N, B1 represents a saturated or unsaturated carbocyclic ring and B2 represents a saturated or unsaturated heterocyclic ring, pharmaceutical compositions containing these compounds and a method of using these compounds, classified in class 544, subclass 242.

VII. Claims 1-22, drawn to compounds of formula (1.0.0) where Y represents C, B1 represents a saturated or unsaturated heterocyclic ring and B2 represents a saturated or unsaturated carbocyclic ring, pharmaceutical compositions containing these compounds and a method of using these compounds, classified in class 546, subclass 268.1.

VIII. Claims 1-22, drawn to compounds of formula (1.0.0) where Y represents N, B1 represents a saturated or unsaturated heterocyclic ring and B2 represents a saturated or unsaturated carbocyclic ring, pharmaceutical compositions containing these compounds and a method of using these compounds, classified in class 544, subclass 298.

2. The inventions I through VIII as defined above are patentably distinct, each from the other since they are structurally so divergent that a reference showing compounds of invention I would not render compounds of inventions II through VIII prima facie obvious. Search required for e.g ; compounds of invention I in class 546, subclass 316 is not the same search required for e.g ;

Art Unit: 1625

compounds of invention II in class 544, subclass 333 and therefore, constitutes a burdensome search. Thus, restriction requirement as indicated above is proper.

3. A telephone call was made to the applicant's attorney, Mr. Raymond M. Speer on April 11, 2002 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Chana Aulakh whose telephone number is (703) 305-4482. The examiner can normally be reached on "Monday-Thursday" from 7:30 A.M. to 6:00 P.M.

If the attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mr. Alan Rotman, can be reached on (703) 308-4698. The fax number for this Group is (703) 308-4556.

Art Unit: 1625

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the Group's receptionist whose telephone number is (703) 308-1235.

A handwritten signature in black ink, appearing to read "C. S. Aulakh". The signature is fluid and cursive, with the first name "C." and last name "Aulakh" clearly distinguishable.
